## READING LIST

### THE PERMACULTURE DESIGN COURSE CD

### ONLINE PERMACULTURE DESIGN COURSE

ALSO

### Self-Study Options

Prices below were set on 9/20/09 and remain in effect through the date above. Previous prices were set 30 months prior to this date. Increased costs for shipping and changes in the course reading list itself have necessitated small changes.

**This document is only for ordering publications at the package price. To buy publications individually, download our regular order form for current prices and handling charges. They are listed here only to demonstrate the savings of the package price.** Current retail prices may vary from this document. We now ship this package to USA address via Priority Mail. Shipment to other countries goes by the least costly postal class. Shipments outside the USA are at the buyer's risk. The order form for full reading packages is included in this document. Find our retail order form at [www.barkingfrogspermaculture.org](http://www.barkingfrogspermaculture.org) or in the **PublicationsOrder** folder of *The Permaculture Design Course CD*.

The schedule of reading assignments from this reading list may be downloaded at no cost from our web page or found as the file [24AssignmentSchedule.pdf](#) in the **Course Tools** folder of *The Permaculture Design Course CD*. **We reserve the right to move publications from the hard copy list to the CD list as our volunteers transfer them to digital text. There is no price adjustment for such changes.**

**Note: Use this document to ascertain the cost of reading materials. Reading materials are not included in tuition in any of our online programs. You must have the reading materials to participate in class discussion.**

**All Details Subject to Change**

**READING PACKAGE: CDs, Books and Hard Copy -- Student or Self-study**May be supplied on CD at our discretion.\*\*Availability on CD Pending

<b>Books and Hard Copy</b>		
<b>Title</b>	<b>Author and/or Comments</b>	<b>Retail price</b>
<i>TIPS Journal, Vol. II.</i>	<b>ON CD</b>	
<i>Introduction to Permaculture</i>	Bill Mollison	24.00
TIPSY #2	(Read especially "Living Lovingly on the Earth" by Dan Hemenway)	8.50
<i>Permaculture: A Designers' Manual</i>	Bill Mollison <b>You may choose not to get this with the package if you already have a copy.</b>	<b>See below (\$84.00)</b>
<i>Designing and Maintaining Your Edible Landscape, Naturally</i>	Robert Kourik. <b>Hardcopy original printing or softcover new printing, our option.</b>	50.00
<i>The International Permaculture Solutions Journal Vol. I</i>		25.00
<i>Water for Every Farm</i>	P. A. Yeomans	35.00
<i>Water Storage</i>	Art Ludwig	20.00
<i>YPC Paper #17 Composting Human Waste,</i>	<b>NOW ON CD.</b>	-
<i>TIPSY #1</i>	<b>Out of Print. Now on CD.</b>	
<i>TIPSY #3</i>		11.00
<i>TIPSY #4</i>		15.00
<i>HortIdeas Online</i> subscription	Certificate students must get this from us.	15.00
<i>HortIdeas Online Retrospective CD-ROM</i>	96 Back issues of HortIdeas	30.00
Course CD	Dan Hemenway	250.00
<b>TOTAL RETAIL VALUE</b>	<b>WITHOUT MANUAL</b>	<b>\$483.50</b>
<b>Student Price</b> (No manual)	Pay this amount for full list except manual**	<b>400.00</b>
<b>Student savings w/o Manual</b>	<b>Does not include CD savings next page.</b>	<b>\$ 83.50</b>
<b>SURCHARGE</b>	Toward books for scholarship students	<b>50.00</b>
<b>PAY THIS AMOUNT</b>	<b>WITHOUT MANUAL</b>	<b>\$450.00</b>
<b>TOTAL RETAIL VALUE</b>	<b>WITH MANUAL</b>	<b>567.50</b>
<b>Student price WITH MANUAL</b> (Use this price if you do not have a copy.)	Must be ordered as a complete package	<b>\$475.00</b>
<b>Student Savings with Manual</b>		<b>\$ 92.50</b>
<b>SURCHARGE</b>	Toward books for scholarship students	<b>50.00</b>
<b>PAY THIS AMOUNT</b>	<b>WITH MANUAL</b>	<b>\$525.00</b>

\* Because of frequent price increases for the *Designers' Manual*, we have allowed students who already have it to order the balance of the reading package separately. You must have the manual to take the course; its readings are core. If you have the manual, pay \$450. If you do not have a copy, or want a new copy at a discount, pay \$525.

## The Permaculture Design Course CD-ROM – Registered Students Only

The following publications are included in the course CD. The course CD is included in the reading package (above) for students or (below) monitors. The folder in which each item is located is identified by underlined text. You **MUST** be registered in the course to receive **this version** of the course CD. A slightly less loaded CD, available to others, is described on the next page.

Item	Author/comments <u>Folder</u>	Price
<i>A Look at Permaculture Design</i>	Bob Kourik (reprint) <u>Papers,Articles,etc. f</u>	5.00
<i>The Importance of Listening</i>	Dan Hemenway <u>Papers,Articles,etc. f</u>	5.00

Keyline Article	<u>Papers,Articles,etc. f</u> Not available otherwise.	gratis.
Course Handbook	Full students only	10.00
<b>TIPS Journal</b> Vol. 1, No. 2	<u>Accounted in hard copy list.</u> <b>Only in full reading pkg.</b>	-

Item	Author/comments Folder	Price
Total Value of CD	May include additional items of value	<b>399.00</b>
CD Cost	<b>(included in reading package)</b>	<b>250.00</b>
CD Savings for Students	Minimum	<b>49.00</b>
CD p&h—USA	Included in price if sent with reading package	<b>5.00</b>
CD p&h—Other Destinations	Included in price if sent with reading package	<b>7.00</b>
<b>TOTAL SAVINGS OF CD WITH PACKAGE</b>	SENT TO USA	<b>54.00</b>
	SENT OUTSIDE USA	<b>56.00</b>
<b>Savings from printed matter in reading package</b>	See previous section (lower without manual)	<b>92.50</b>
<b>TOTAL SAVINGS OF READING PACKAGE (with manual)</b>	TO US	<b>146.50</b>
	OUTSIDE US	<b>148.50</b>

- Savings for persons not enrolled in the online course are somewhat less because a few items are reserved for students and because there can be some shipping charges. **TIPS and TIPS Y journals are part of the reading package, and are not on CDs purchased separately from the full package.**

---

---

## Course CD—Non-Student Version – Monitor or Self-Study

The Self-Study version of the CD is nearly identical to the student version, except that it does not include a few proprietary documents such as the Course Handbook available only to registered students. The student version is sent **only** to registered students.

To take the course, a monitor or self-study student must exchange his/her CD for the student version, and pay the current upgrade price, which includes an update of all changes and additions since the self-study student's original CD was burned. See the course fee table for current upgrade fees.

Since our primary goal is to train people who might go on to qualify as permaculture teachers, the discount for the self-study reading package is less than for the full reading package. The price for the CD alone is the same, at this time, for either full student or self-study student.

**Our course CD is licensed for use by only one person, and the license is not transferable.**

	<b>Postage and Handling, per package</b>	
	To USA (priority, insured)-----	\$35.00
	To Canada or Mexico-----	50.00
	To addresses out side US or other North American destinations-----	75.00
	<b>Postage and Handling, individual items, not package, see Yankee Permaculture Order Form</b>	
	<b>Additional contribution for scholarship student expenses</b>	
	<b>TOTAL ENCLOSED IN US\$</b>	

+ If you buy a *Manual* at the same time as you buy the rest of the reading package add \$75 to the price of the package. This saves you US\$9.00 + additional postage and handling.

Payment in US dollars only. Send bank check or postal money order for expedited shipment. Prices subject to change. Reading list contents subject to change. See further instructions below.

\* The course package is shipped Priority Mail to USA addresses, most economical rate outside the US. Shipment outside the USA is at your own risk.

\*\* For current P&H rates, see the Yankee Permaculture Order Form.

**We recommend that you register before or at the same time that you order your books. We cannot send the full Course CD unless you are actually a registered student.**

NOTE: Because of exorbitant bank fees to exchange non-U.S. Currency into US dollars, WE CAN ONLY ACCEPT PAYMENT BY CHECK DRAWN ON A US BANK OR BY INTERNATIONAL POSTAL MONEY ORDER IN US DOLLARS. IMPORTANT. Make checks payable to Yankee Permaculture. However make postal money orders payable exactly as follows: "Dan or Cynthia Hemenway." (Not "Dan Hemenway" or "Cynthia Hemenway" but "Dan or Cynthia Hemenway"—all four words!) Incorrectly assigned postal money orders may cause delay of shipment. The US post office may refuse to cash postal money orders made to Yankee Permaculture!

**PayPal.** Yankee Permaculture no longer accepts payment via PayPal.

**EXPEDITED SHIPMENT** requires payment by bank check or money order. See instructions below. Personal or business checks are fine, but shipment will take place about two weeks after receipt of your check. **Use of any delivery service except US Post Office will delay your order. We don't want delivery vehicles coming to our home! Sending payment by a means that requires our signature can substantially delay your order.** We recommend against mailing cash.

**Prices subject to change.** There can be no substitutions if ordering from this list. Offers subject to availability of texts from publishers. If you feel obliged to ask for substitutions or deletions anyway, please take your permaculture training from someone else! If you have a lot of these publications, you can fill in at retail prices using the Yankee Permaculture Order Form.

## About the Course CD

The course CD includes almost all the "standard instructors' posts" from the Online Course, numerous reading resources and many other references. Most contents of the *Permaculture Design Course CD* are listed earlier in this document. **The tuition for monitors is waived with registrations received at the same time as we get their order for the full CD. (Free monitoring is not included with the economy CD.)** **Students and monitors receive the CD when they purchase the full reading package.** We strongly recommend that you compute the total costs before ordering materials retail, because even with some duplications the reading package is usually cheaper. **We will not compute these matters for you. In all cases, you must do your own arithmetic.** The ability to perform simple addition is a requirement for enrollment. Permaculture is a self-reliance movement, among other characteristics.

## MOVING ITEMS FROM THE HARD COPY LIST TO THE CD LIST

We are presently in the last stages of a program to convert a number of hard-copy documents to digital format. As we do this, we will add these to the CD list and remove them from the hard copy list. **This will be done without notice.**

As in all permaculture design decisions, we have several reasons for converting as much as possible to CD:

- 1) We save paper and therefore trees.
- 2) We save money in printing and in shipping.
- 3) Savings enable us to reduce price increases for total reading package due to increases in the prices charged by publishers of the books that we use.

## Future Developments

The course CD, over time, becomes richer in images and large files of various kinds. Besides enriching the course CD, we are developing other kinds of permaculture CDs. Our substantial series of permaculture slide-shows are being converted for individual use. Inquire about availability of specific presentations. And we are considering CDs consisting of permaculture designs, and of standard designs." Some of these projects will depend on the demand for this course CD. If you are particularly interested in such materials, please let us know. Of course you can get many of these materials in other formats already, from our regular offering of papers and our list of slide-script shows available for sale.

---

---

ALTERNATE OPTION –

## TOTAL YANKEE PERMACULTURE LIBRARY

You may buy everything on the current Yankee Permaculture Order form at total price less 20%. Shipping worldwide is the same as above for the reading package. If you have some of these publications, give the duplicates as gifts or contribute them to our book fund for scholarship students.

PLEASE INDICATE THE KIND OF COMPUTER SYSTEM YOU USE AND THE NAMES OF YOUR WORD PROCESSING AND DATABASE PROGRAMS. WE MAY SUPPLY SOME MATERIALS ON CD at our discretion only.

---

**Give a Permaculture Library or Course Reading List** to a group in an economically oppressed country. We have more requests for such literature than we can fill. We will tell recipients the names of donors unless you ask us not to. You may specify a recipient for drop shipment. Otherwise, we will send materials to a suitable group selected at our discretion.

---

Be sure that you have a copy of the current full Yankee Permaculture Price List. **Any order for the individual publications, not the full package, must be on our regular order form.** You can download it at [www.barkingfrogspermaculture.org](http://www.barkingfrogspermaculture.org)

All our price lists are dated. We try to honor any price that was dated to the previous six months, sometimes much longer, except when updated prices are posted on our web site. **Note:** other publishers usually give us no warning when they raise prices. If they raise their price to us, we

must raise our price to you. All offers are subject to availability. Order forms downloaded from our web site are generally current.

We are not responsible for out-of-date prices listed by third parties. **The only official price list online is at [www.barkingfrogspermaculture.org](http://www.barkingfrogspermaculture.org)**

To learn of additional publications relating to permaculture, check the book review sections our serial publications.

**We particularly recommend the following books**, although Yankee Permaculture does not carry them at this time. We do not keep track of which are out of print. Used copies normally are available via the Internet.

<b>Title and Author</b>	<b>In print?</b>
<i>The One Straw Revolution</i> by Masanobu Fukuoka (out of print)	No
<i>Freshwater Aquaculture</i> by Bill McLarney	?
<i>Dwellers in the Land</i> by Kirkpatrick Sale	?
<i>How to Grow More Food...</i> by John Jeavons	Yes
<i>Seed to Seed</i> by Suzanne Ashworth	Yes
<i>Garden Seed Inventory</i> by Kent Whealy	Yes
<i>Fruit, Berry and Nut Inventory</i> by Kent Whealy	Yes
<i>The Power of Duck</i> by Takao Furuno, Tagari Press.	Yes
<i>How to Live Free, At Last</i> , by Pat ffyske Howden, Back Yard Tech Enterprises, Cone St., Macleay Island QLD 4184.	Yes
<i>Rainwater Harvesting for Drylands</i> , by Brad Lancaster. 3 volumes. A useful primer, but with some errors. Disregard the description of Keyline in particular. Vol. 2 highly recommended.	Yes
<i>Gardening When it Counts: Growing Food in Hard Times</i> , by Steve Solomon. An excellent book that disputes much of what we say about gardening in the course. If you read this, try to finish before Week 10 so we can discuss any of your questions in class!	Yes
<i>Roots Demystified</i> by Robert Kourik	Yes

The publications on this reading list apply to broad aspects of permaculture. Information pertaining specific circumstances is listed in many other publications on our regular and special order forms.

**People who do not require certification** and who wish to study permaculture independently can use the *Permaculture Design Course CD* and the course reading list to conduct their own course of study. We recommend that you use the course assignment schedule in the **Course Tools** folder of the CD to structure your reading and other work. Be sure to follow the readings in the **Weekly Posts** folder. By using the contents folder provided with each weekly module, you can skip reading administrative posts that are mainly for registered students and go straight to the lectures, notes and outlines for each module.

Course monitors can also “listen in” to the class discussion and get some supplemental email posts of material not covered by the reading list. **Anyone who licenses the course self-study CD may also monitor the course discussions, student reports, and other online**

**activities.** The **required** registration form is available on our web site. In order to get the CD and monitor the course for one price, you must register to monitor the earliest course cycle scheduled after you have purchased your CD. **You must register at the time that you license your CD.** If you plan to get the reading list, you can save money by registering and buying the reading list at the same time. Monitors must also post an introduction at the outset of the course cycle or as soon as they join the course.

For the most complete information about the online course, download the **course preregistration package** from our web site. This contains the course protocol, reading assignments, reading package data, registration, and scholarship information.

To begin practice permaculture design, even at home, it is advisable to get some training or guidance from an established permaculture designer.

#### FLORIDA PROGRAMS

Due to changes in our personal lives, Elfin Permaculture has drastically curtailed its availability to travel for teaching purposes. We need to remain close to home most of the time. Therefore, we are available to lead permaculture programs around the North Central Florida region, particularly programs that take place over series of weekends. Most of the programs offered on our website can be redesigned to be spread over a longer time in this fashion. Contact us at [BarkingFrogsPC@aol.com](mailto:BarkingFrogsPC@aol.com) for details. If you live within a 50-mile radius of Gainesville or Ocala, we can commute to training programs. We can redesign some programs for slightly more distant locations, ranging about from Jacksonville to Sarasota. We can probably schedule weekend workshops anywhere in Florida.
